CAMILO CESPEDES UMANA

Software Engineer

San Jose, Costa Rica, San Jose, Costa Rica

8332-0330   camiloumana34@gmail.com

PROFILE

Motivated Full Stack Developer with practical experience in designing, developing, and maintaining responsive web applications and desktop systems. Skilled in both front-end and back-end development, with expertise in Java, JavaScript, React, and SQL. Focused on writing clean, efficient, and maintainable code, while ensuring usability, scalability, and optimal performance across all stages of development.

PROJECTS

Java Based Inventory, Cenfotec University
Mar 2025 — Aug 2025
San Jose

- Developed and maintained Java-based inventory management system, enhancing data accuracy and retrieval efficiency.
- Collaborated with cross-functional teams to gather requirements and deliver tailored software solutions.
- Conducted testing and debugging processes to ensure software reliability and performance.
- Leveraged SQL for effective database management and data manipulation.
- Managed inventory levels to ensure availability of products while minimizing stock-outs and excess inventory
